

Lower Elementary Classroom Support (Ages 6-9)

The Montessori Lower Elementary Support Teacher assists the lead teacher in providing a nurturing, stimulating, and prepared environment for students ages 6 to 9 (Grades 1-3). The support teacher works collaboratively to help implement Montessori principles, ensure smooth running of the classroom, and support students' academic, social, and emotional development.

Additional Roles Include:

- Work with individual students or small groups to reinforce lessons or support differentiated learning.
- Assist in managing classroom behavior using Montessori approaches and respectful communication.
- Supervise students during classroom work cycles, recess, lunch, and transitions.
- Help create and maintain classroom materials and Montessori works.
- Support Elementary Aftercare, as needed.
- Support Monthly Forest School.
- Go on daily walks with students in the downtown Fort Wayne area to the YMCA, Library and local parks.

Benefits:

While we are looking for someone to support Monday - Friday, we do have some flexibility with the start time each day. We are very family friendly at Alyssum Montessori School.
