CHILDREN'S HOUSE (3-6) LEAD GUIDE

Located on three wooded acres in the heart of Westfield, the Montessori School of Westfield was founded in 1994 and has served thousands of children over the decades. Our students range from 18 months to 14 years, with an enrollment of around 150 children.

We currently have two Children's House (3-6) environments, each with a maximum of 25 children. The classrooms are outfitted with all Montessori materials, and we welcome a trained guide's input for extensions of the curriculum. Applicants should have a Montessori certification (3-6) or at least be in their practicum year. They would work with our Children's House staff and administrative team to establish an appropriate schedule to maximize positive interactions with the students.

Our Mission Statement

- To awaken the child's spirit
- To guide the child to develop the kindness, courtesy, and self-discipline to become a leader in society
- To encourage and facilitate a child's internal desire for independence
- To guide the intellectual development as the child discovers how to be a lifelong independent learner.
